WONGTELLSOFABDUCTION

Premier Michaelakopoulos and His Group Lose Control as Result of Military Movement Led by Salonica Garrison; Revolutionists Directed by Pangolos and Hadjikiriakos.

Athens, June 25—The Greek Cabinet headed by Premier Michaelakopoulos has resigned and former Premier Papanastasion has agreed to attempt to form a government, offering cabinet position to the leaders to day's revolution, General Pangalos and Admiral Hadjikiriakos.

Salonica, Greece, June 25—The newspaper Independent announces the Salonica garrison decided to demand the immediate resignation of Premier Michaelakopoulos because of his alleged inefficiency in office and for the purpose of forming a military government presided over by General Pangolos. The revolutionary officers occupied public buildings and railroad stations. A press censorship has been established.

Leaders of the revolution telegraphed the President of the Greek Republic:

"We proclaim an overthrow of the Government. We will hold the Cabinet responsible for any bloodshed."

General Pandalos is complete master of the situation in Greece. Everything has been done to ayoid bloodshed, and the revolution may be like was formerly Generallesimo of described as a kid glove operation.

General Pandalos was appointed Greek Minister of war in June 1924 bloodshed, and the revolution may be like was formerly Generallesimo of described as a kid glove operation.

A military communique says the revolutionary movement is now in control throughout Greece. The Greek fleet under Admiral Hadjikiriakos, former Minister of Marine, has joined the revolution.

The communique of the revolution-lists says their movement is opposed rowsere in Greece.

OUR CARNIVAL

EVERYTHING REFLECTS a grim determination on the part of the weatherman to dodge all risk of blame in respect of his contribution towards the success of the Crystal Garden Cartival. He has been showing some of his first-class wares for many days and he is giving us a taste of what he can do at a pinch. To him the energetic band of citizens who have worked untiringly for weeks will extend hearty thanks for the pleasant prospect

But it takes more than brilliant weather to make any sort of celebration a complete success. Admittedly, it is always of capital importance, but the people of Victoria have a definite duty to perform during the next few days. First and foremost they will be ex-pected to clothe themselves with the carnival spirit and take part in the festivities as if they really meant to do their share to the best of their ability. And it ought not to be a very difficult job for anybody. Many kinds of diversion, interesting events within the Crystal Garden itself, dazzling pageantry at the Arena, may be participated in, and the whole programme thoroughly. enjoyed for a modest financial

As we have pointed out this carnival is in the nature of the first of a new series of celebrations which should go far to add to Victoria's popularity as one of the most attractive holiday resorts on this continent. It is therefore essential that it set the highest possible standard, for upon that depends the immediate benefits that will accrue, while the greater the triumph scored the more will this locality's general reputation be enhanced. The people have this opportunity of helping to advertise the city.

UP TO THE SENATE

FOR THE THIRD TIME the Senate of Canada is about to deal with legislation which is intended to give the Government of British Columbia the sole right to import liquor for beverage purposes into this Province On two former occasions a bill similar to that which the House of Commons has just approved was rejected because the Conservative majority took the view that its pro-visions encroached upon the liberty of the subject. Nobody regarded this reason with any seriousness. Political motives obviously actuated the Senate. The people of this Province were at that time, and still are, on record for the entire principle of government control.

Government control is not practicable as long as the private individual and the expert warehouse shall be permitted to import. As part the g as they import there will be illicit distribution. The measure which has been sent to the Senate prohibit private importation and furnish the provincial authorities with the necessary machinery to put an end to the activities of the export warehouse. Its operation should reduce bootlegging to the minimum and curb much of the illicit traffic between British Columbia and the neighboring repub-lic. By approving the bill, there-fore, the Senate can assist the law officers of the Crown in this Province and remove some of the dif-ficulties which the law officers of a friendly nation have been encountering ever since the export warehouse commenced to abuse its privilege.

to compete with Australia in agri-cultural produce under the pro-posed preferential tariff, apart from the fact that seven thousand miles of sea separate the two parties to the agreement, the future holds a very miserable prospect for the people of this Dominion. Happily the measure has gone through the House of Commons with the bless-ing of the representatives of all parwhich greater trading facilities be who recognize the benefits tween these two important domin-ions will certainly confer upon

their respective peoples.

The Sun is needlessly alarmed when it professes to see Canada the dumping ground for Australian goods. It also seems to ignore the fact that every year this country sells goods to the value of nearly \$20,000,000 to the Antipodean Commonwealth and imports only \$1,500,000 worth from Australia. This lop-sided arrangement obviously could not have continued indefinitely. Adverse balances are no more popular in Australia than they are in any other country. But the trade pact which the King Government has negotiated will now increase our exports and, proportionately, our comports, a develop-ment in trade and movement through Pacific Coast ports which The Vancouver Sun has often so glowingly foreshadowed and earnestly

THE WOMEN OF CANADA

DO THE MEN OF CANada, the politicians, the industrialists, the merchants, or the average man in the street whose lot has been cast in the pleasant places of this Dominion, ever stop to think. how great has been the contribution which the pioneer women of this country have made towards the increasing prosperity of the present the men who laid the solid founda-tions of the country, the men who were called upon to hack their way to a livelihood with only the encouragement which a stout heart and a brave woman furnished, would have faltered in their task if their days of strenuous toil had not been cheered by the home-builder— the faithful wife and mother?

We are reminded of the debt which Canada owes to the women of a generation past and gone, a debt which must still be recognized as long as the great rural areas so sparsely settled continue to demand the patience of womenkind, by the remark which Mrs, David Watt, the President of the Federated Women's Institutes of Canada, now in session in Victoria, made during the course of her address yesterday afternoon. These were her

"Our greatest need to-day is for a happy and prosperous family on every farm in Canada."

Are the men of Canada doing as much as they can to improve conditions in the rural areas, to stimulate the movement of families from the congested centres into the open spaces wherein the key to a competence is to be found, or are they just clinging to the idea that political noise and parliamentary platitudes form a fitting tribute to the sacrifices which the farmer's wife has made in days gone by and is continuing to make without a

Make no mistake about it. The women are not the grumblers in this country to-day. For the most part the women of rural Canada are silent spectators of the modern trend, paradoxically, the mad scramble for ease and comfort which, to a greater degree than they will admit, the men are leading. Too few of our leaders of public thought will bring themselves to realize that the farm supports the factory chimney. Too many take the sugar-coating and leave the pill. But the soundness of Mrs. Watt's diagnosis can not be challenged. When that need has been satisfied this Dominion of Canada will be a much poorer stamping ground for the pessimist than it is now,

Oldham is a two-seat constituency and only twice in the last four elecand only twice in the last four elec-tions has a Conservative occupied one of them. Sir Edward Grigg— whose appointment, although a Liberal, to the governorship of Kenya Colony caused the vacancy— has sat since 1922, polling less than one thousand votes fewer than his Conservative colleague at the 1924 contest. On that occasion Mr. W. M. Wiggins, the Liberal who won yesterday's by-election, failed to poll sufficient and did not run in 1923. Mr. W. J. Tout, the unsuccessful Labor candidate, the unsuccessful Labor candidate, headed the poll that year and was the junior member after the 1922 election, taking third place in his unsuccessful bid for endorsement last October. There is thus no change, the riding being represented by Mr. A. Duff Cooper, Conservative, and Mr. W. M. Wiggins, Liberal, whose party was naturally disappointed that it was not given opportunity of making the silk duties, even in their modified form, a more spirited issue.

DR. FRANK CRANE THE BACKSLAPPER

He is a good illustration of a man with personality, but no principles.

Personality is a good thing to push us on our way. Everybody likes it and we are fortunate in having a personality that is appealing.

But in a way it is deceptive. It is no good without principles, without some things we believe in and fall back on and stand for when the wind is in any direction. You can always tell when you find a man of principle. He has his feet upon a rock and cannot be moved.

He is the kind of man we trust. We know that he will keep his word and we know that he will be consistent with himself.

Personality is a good thing, but personality alone is delusive.

Personality is a good deal a matter of temperament. A man is usually horn with it or horn without it, although with care we can cuitivate it.

Many a good fellow is a drunkard, a liar and a thief. We may like him and enjoy his personality, but we never depend on him.

There is many another fellow who seems to be mean and ungracious and grumpy, but whom we all trust because we know he has principles and wiff not depart from them.

Unfortunately positions in politics for to men with personality

Unfortunately positions in politics go to men with personality almost entirely, but positions of trust in the business world, the position of president of a bank or chairman of a large corporation, are filled by men who have principles.

ciples.

As I have said before, we do not want a live wire or a good mixer for bank president. Ed Howe says that for this position we want the meanest man in town.

We are not looking for popularity nor general likeableness in those people who occupy positions of trust.

of trust.

We are looking for people who keep their word and whose obligations are sacred.

We are looking for people who are good in the dark as well as in the light, people with background, people with principles that are unswerving.

Some states to the south of us appear to have attracted a large number of wealthy settlers by this expedient, even as the Dominion Government attracted capital by issuing tax-free bonds. This experiment on the part of our Government has been questioned as being economically unsound, and it seems quite possible that time will show that the total abolition of succession duties is equally open to question.

So far as the average man is concerned all the gold standard means is that he must pay his debts in gold (which he can only obtain by digging for-it) or in a currency issued supposedly on a gold basis (which can only be obtained by borrowing from the banks.

All lepers in Canada came under the care of the Dominion Government by Act of Parliament in 1906, and the actual transfer was made from the provincial authorities the next year.

Leprosy has been found among native born Canadians in several parishes along the Gulf of St. Lawrence for a long time. It is gradually being overcome until now there are probably not more than fifteen cases altogether. The hospital is a rather pleasing stone-faced structure. The Sisters of Mercy nurse the patients and a resident physician is in charge. In British Columbia the lepers were cared for at Darcy Island until last year. Owing to the isolation and consequent difficulty of caring for them there, a modern colony system hospital was built last year on Bentinek Island. It consists of a residence for the caretakers and nurses, a storehouse for supplies, a small hospital for bed-ridden patients, if there should be any, and, at present, six cottages for the patients.

FINANCES TOPIC OF MUCH DISCUSSION BY INSTITUTES

British Columbia Legislature Gives Largest Financial Assistance in Canada, Conference Told To-day

Finances in their broad aspect and in particular reference to the assistance given to the institutes by the various provincial governments were reviewed at length at this morning's joint session

the form of a comprehensive report by Mrs. A. H. Rogers of Alberta. This report stated that in each Province, with the exception of Alberta, the Governments provide the expenses of the superin-

berta. This report stated that it tion of Alberta, the Governments provide the expenses of the superintendent and assistants. Grants and delegates' convention expenses were made in the case of Prince Edward Island, with its ninety-five institutes and 1,856 members; Nova Seotia, with its ninety institutes and 2,778 members; New Brunswick, with 107 institutes and 2,700 members; Quebec, eighty-six institutes and 1,679 members; Ontario, 1,004 branches and 38,200 members, and British Coulumbia, 114 branches and 4,000 members, the latter Province providing the largest grant to the institutes of any government in Canada. In Mantibala, with its 135 branches and 4,000 members; Saskatchewan, with 184 institutes and 5,000 members, and Alberta, with its 279 branches and 6,000 members, no direct government grants were made but as sistance was given with the expenses of delegates. All the provinces also provide for short courses, demonstration lectures, publishing of pany-phlets and programmes.

The report was followed by much discussion in which an outline of the

WOMAN M.P. SCORES TO WORLD'S W.C.T.U. CADET SYSTEMS AND

Agnes McPhail Says Empire Day a "Pompous Bombastic Performance"

Ottawa, June 25.—Defence estimates led to sharp debating in the House last night. Miss Agnes Macphail, in a speech which brought some lively replies, declared that in, our method of handling international disputes we were entirely pagan. She warmly criticized cadet training in schools. The boys were right to the core, but the thing they were doing was false to the core. Empire Day, instead of showing the things were were doing for civiliazion, Miss Macphail went on, was nothing but a strutty, silly, pompous, bombastic performance by military men and those who backed them. Miss Macphail spoke of 'silly' war memorials erected all over the country which were memorials of war rather than of those who had paid the supreme sacrifice.

A vote of \$400,000 for cadet training was before the House.

On division, Miss Macphail's amendment was defeated by \$4 to 27. Three Laberals, A. R. McMaster, J. J. Denis and R. Lanctot, voted with the Progressive opponents of the

A pretty wedding took place on Monday evening at Breadalbane, in the minister's residence, when in the presence of a few intimate friends the Rev. Dr. Carupbell officiated at a ceremony which made Miss Annic May Robertson of Ladyamith the bride of Mr. George Edward Lund of Victoria. The bride, who was very pretty in a gown of tricotine, with hat en suite, was attended as brides maid by her sister, Miss Sarah May Robertson, very handsome in a frock of pink Canton crepe. Mr. and Mrs. Lund are enjoying a honeymoon among the Sound cities, and on return will make their home in Victoria. ST. MARY'S HELD

Twenty-four Chinese, Accused of Refusing Duty on Board Ship, Remanded For Trial

Twenty, four Chinese members of the crew of the Coughlan steamer City of Vancouver, appeared before Magistrate Jay in city police court to-day, charged by their captain with refusing duty on board a ship of British register. The absence of any interpreter who could understand the morthern Chinese dialect spoken by the accused led to an adjournment of the trial until 2 p.m. to-day and finally until to-morrow. An interpreter will be brought from Vancouver for the trial.

ter will be brought from Vancouver for the trial.

According to Capt. J. R. Elford, master of the Ss. City of Vancouver, the Chinese section of his crew were taken on a two years' contract made by the owners with the Sallors' Union at Shanghal, being shipped to Vancouver, where they signed on. The contract would not expire until December, 1925, but now Captain Elis anxious to get rid of the men he accuses of making trouble on board ship.

before Magistrate Jay this morning it was found that the official interpreter could not comprehend the northern dialect spoken by accused, only one of whom spoke Cantonese or understood English. A hurried search of Chinatown revealed the fact that no one could be produced who would at such short notice undertake the task of interpreting the evidence. Lee Toy, son of the late Lee Mong Kow, essayed the task, but admitted that he was unable to say that the could fully understand what the northern seamen said. Hearing was adjourned forthwith.

According to Capt. Elford the cause of the strike appeared to be the scale of wages paid. Twice the men asked for higher wages, but this was refused. The contract they signed was one with Shanghai shipping interests, who in turn contracted with the Coughlan owners, in Vancouver, it is explained.

SEATTLE SHIPPING

Seattle. June 25—Ship models, ranging from replicas of vessels that sailed the seas 400 years ago, which ornament the walls of the marine room of the Olympic Hotel, to a display of miniatures of modern ocean liners pixing the Pacific, attracted the attention of many delegates to the Foreign Trade Convention here.

Among the models of older ships was a representation of the old British barque Cairnsmure, an iron sailing craft, which is said to have pleneered the foreign trade out of Puget Sound and Gray's Harbor ceuntry. The Cairnsmure was dwarfed in comparison with the models of modern passenger liners and freightars.

ADELAIDE TO RUN

SPECIAL EXCURSION

C.P.R. Boat Will Carry One Thousand Excursionists Across Straits July 4

The Canadian Pacific Railway Company has completed arrange-ments for a boat excursion to Roche Harbor, San Juan Island, on July 4. The steamship Princess Adelaide will be put on the run, the trip starting at 8 o'check on Saturday morning, July 4. Over a thousand people will in all probability take in the trip and It is expected that reservations wi

fidently anticipates a full ship.

The Adelaide will follow in the wake of the race in which 300 yachts will take part, meeting the flotilla off Cadboro Bay and continuing with the vessels to Roche Harbor. The

the vessels to Roche Harbor. The Adelaide will be met near Roche Harbor by American Government vessels and destroyers and racing power boats.

Arrangements are being made by the officials at Roche Harbor for a reception for the excursionists with military bands, one or two of which will go over from Victoria. It is expected that the Gizeh Temple Shrine band and another band will take the trip.

Luncheon and dinner will be served at Roche Harbor.

Besides picnic parties there will be found attractive places for the greussonists to spread their lunches on the grass if they so desire. All kinds of aports have been specially arranged by the people of Roche Harbor as well as a big baseball match July 4 contests, races, land sports, water sports and regatta. There is to be also a number of Naval and Government coast guard vessels, including one large destroyer present and participate providing besides the Pacific coast regatta a fine naval parade ashore.

The Adelaide will arrive about 10 or 11 c'clock and the vessel will enter the custom house and then be ready to follow the regatta in the big races. 300 yachts will participate in this affair.

A number of distinguished people from the British Columbia Government are expected to attend the affair and will make ten minute specees.

Tickets may be secured at the C.P.R. offices on Government Street or at Macey Abell's, Diggon's, Fietcher Bros.

Sessions of the Game Conservation Board to be held in the northern territory under Chairman M. B. Jackson, K.C., will open at Prince Rupert on July 20 and continue at Hazelton, Smithers and Burns Lake on July 21, 22 and 23 respectively. Registration of trap lines will be one of the most important issues to be taken up.

The forthcoming big musical event which is to take place on Sunday afternoon next is one of the principal features of the Summer carnival, and all arrangements connected with it are now almost complete. For sometime the music committee has been formulating plans, with the result that one of the most glorious oratorios ever written will be given by a large choir and orchestra, members of which are well-known are capable singers and instrumentalists of the community. The choir, numbering over three hundred people, will be under the direction of Dr. Hodgson, and the work to be produced, which is now in the final stages of rehearsal, is the "Hymn of Praise" by Mendelssohn. The principals are gan, five years and six months old son of Mr. Samuel Flannagan, who passed away in Vancouver last Tuesday, took the remains were laid to rest is Ross Bay Cemetery.

The funeral of the late Erdest John Hurren, who passed away at St, Joseph's Hospital. will take place to-morrow afternoon at 2 o'clock from the Sands Funeral Chape, and the remains will be laid to rest in Ross Bay Cemetery. The late Mr. Hurren was born in Adringham. Surfolk, England, forty-three years ago and had been a resident of this city for the last tweive years, lately residing at 410 Sherk Street. He is survived by his widow at home, and was a member of the United Service, Lodge No. 24 A.P. & A.M., and Dominion Lodge No. 4, under whose auspices the funeral will be conducted.

Service for, the late Colin Henry

hearsal, is the "Hymn of Praise" by Mendelssohn. The principals are Miss Eva Hart, soprano; Mrs. Edward Parsons, soprano, both of the city, and McMillan Muir, tenor, well-known in music circles here for some years, and now a resident of Portland. Edward Parsons, of the Metropolitan Church, will act as organist, while Mr. Prescott will occupy the first chair of the orchestra. Arrangements have been made to take care of the large attendance which is anticipated, and it is requested that all people will be in their seats at 3 o'clock, the time set apart for the opening number of the programme.

BULLFIGHTING

An enthusiastic advocate of sports, Mr. Elford warmly criticized the bullfighting proclivities of the Spaniards as lacking in character-forming value. "You may think of all the terrible things you have ever heard of, but bullfighting excels all blood-thirsty imagination," he declared. While Barcelona is not one of the big fullfighting centres of Spain, three rings are maintained, and, on a Sunday afternoon Mr. Elford found 47,000 people awaiting their sport at one of the rings, the bull being primed, by goading, to provide a good fight.

"The only place I saw a poor horse in all Spain was in the bull-ring," he said, detailing the gory ending of the ancient animals, preliminary to the sword work of the matador. One Sunday afternoon's "sport" is the killing of six bulls, he said, in closing.

Burnett of Victoria, and this contractor is now grading around the Crystal Garden building in order to give a finished appearance to the grounds.

In designing the Crystal Garden for this city, as far as possible an endeavor was made to secure purchases of local material throughout. The general contractors, Messrs, James Hickores, have employed local brick of the Victoria Brick Company's product.

The sand and gravel used came from the Producers' Rock and Gravel Company, and again demonstrated Company, and again demonstrated that the natural materials for good construction exist here in abundance, an opinion sustained by numerous construction engineers who have visited the city in recent years. Cement from the B.C. Cement Company has been used in this work. This company, since the consolidation of the two plants on each side of Saanich Arm, has become one of the most important Island industries, as is shown by the large amount of power used from the B.C. Electric Railway hydroxelectric plant. Its presence here completes the circle of necessary building materials, the raw product of which is available on the Island, including stone, sand, gravel, lumber and cement products. As the Province expands, the demand for the cement from Saanich Arm must show a steady and progressive expansion.

FLORAL DECORATION

Round the building runs a promenade, 186 feet long and twelve feet wide, which, flanked with flowers as a magnificent conservatory, should be one of the most attractive features of the institution.

When the negotiations were in progress, an undertaking was made to provide dancing floors, and two of these are furnished on the promenade floor, at each end of the building. They are ninety-four feet by forty feet each, arranged so that they can be shut off from the building if it is desired to separate the entertainments in progress.

Request For Home Economics Course in Normal. Schools Voted Down

The British Columbia conference of Women's Institutes considered a number, of resolutions at this morning's conference, the matters under discussion covering a wide range. A resolution from Naramata asking for legislation to recognize the rights of each party in a joint deed under the Family Testators' Act was referred to the legislation committee for consideration. The conference voted down a resolution asking that 'for the promotion of the future health and welfare of the Province, home economics; on economic lines including mothercraft be made a com-

cituding mothercraft he made a compulsory subject in the Normal schools with a view to its eventual teaching in all public schools."

"Resolved that we petition the Dominion and Provincial Governments to increase the duty on eggs from the American side to the same amount as the American Government charges us." was passed unanimously, and in the discussion the members were urged to follow up the resolution by bombarding the governments with letters asking for the increased tax.

increased tax.
Other resolutions covered matters
affecting the organization of the institutes and evoked much discussion. WORK AND METHOD

WORK AND METHOD

Women's institutes' work and method were graphically explained by Mrs. J. D. Gorden, who detailed the relation of all institutes, giving their origin, composition and their method of procedure. As part of her work as provincial convener, Mrs. Gorden conducted institute schools in connection with three of the island institutes. The course consisted of ten weekly two-hour periods, either afternoon or evening sessions. The first hour of each period was devoted to parliamentary procedure, and the second hour to the subjects taken up by the institute's standing committees. Resolutions were brought in building, equipment, and Mrs. Lewis, the matron, acting as personal guide.

At the Dominion Astrophysical Observatory they were shown the mechanism of the seventy-two-inch telescope, and continuing northwards they later visited "Benventuto". Tod Inlet, at the kind invitation of Mr. and Mrs. Butchart. The sunken gardens were particularly admired by the visitors.

The last rendezvous of the afternoon was Experimental Farm, where the ladies were the guests of the Saanich, Garden City, Strawberry Vale and Royal Oak Institutes. Supper was served out of doors, where the full beauties of the evening scene across the Straits could be admired. The repast was given a particularly appropriate flavor, thanks to a generous gift of strawberrigs from the Fruit Growers' Association. second nour to the subjects pased up by the institute's standing commit-tees. Resolutions were brought in, and dealt with, and debates dis-cussed. The work of the Provincial Government in the various depart-ments connected with the standing committees was given as part of the knowledge necessary to all institutes. Such a course was not fully covered in ten lessons, but this model course alded the members in understanding some of the principles underlying the conduct of the assemblies.

Mrs. Gordon also spoke of the ques-tion box in The Agricultural Journal, in which genuine bona fide questions were answered to the best of her ability, and related other courses of instruction which she had inaugur-ated for the benefit of members.

DESCRIBED DENTAL CLINIC

Mrs. Moss, C.B.E. of Cowiehan opened the discussion, which came as a follow-up to Mrs. MacLachlan's excellent paper on the subject of public health and child welfare.

Mrs. Moss spoke of the health centre at Cowichan, with special reference to the dental clinic which find heen formed in connection, and enlarged on the difficulties encountered in getting it started. She explained that though the experises seemed heavy the first year, owing to the number of children with defective teeth needing attention, the cost decreased as the work went on, and less work on the teeth was necessary. Consequently less of the dentist's time had to be maid for. For instance, at the inception- of the clinic thirty hours' work had to be done for every two hours of survey work on the children's teeth. Now the time taken for work equals that of the survey, it was found that since receiving attention the children took a pride in their teeth and took care of them. It is estimated, the speaker said, that the cost entailed on the nation through neglected and therefore decayed teeth, ran into hundreds of thousands of dollars.

Oh, Tooter! Oh, Scooter!" And all the while, the little bunny boys were hidden in the cave tree, peering out through a crack and laughing at Uncle Wiggily.

But at last, when he couldn't find them, and was going to run off to get the Police Dog to come, Tooter cried: "Here we are—in the cave tree!" "Oh, I'm so glad," said Uncle Wiggily. Though you were lost. Come out and we'll go home.

But Tooter and Scooter couldn't come out! No, sir! They had caten so much plenic lunch that their little stomachs had swelled. And, anyhow, it was a pretty tight fit for two of them inside the hollow tree. And they couldn't get out.

"Oh, dear!" cried Tooter, and Scooter said the same thing. They were afraid they would have to stay in there forever, or maybe all night, and they were sorry for the trick they had played on their new daddy. But Uncle Wiggily didn't laugh at them.

Last Minute News on Stocks and Financial

New York, June 25 (By R. P. Clark & Co.)—The stock market made a steady tone throughout the session and in several instances price gains were the rule. The northwest rails were in active demand early, it being apparent that huyers are being attracted to this class of stock by improved outlook for Spring wheat crop, and a possible favorable revision in freight rates. In the last couple of days there has been quite a little covering by shorts who have been making efforts to bring about a general lowering. In prices and the improved tone of market seems to be attracting a better class of outside inquiry. As yet we cansider the general run of current influences to warrant a beying position. Just now it looks as though the market may be more or less of a specialty affair.

New York, June 25 (By B. C. Bond Corporation's direct Wall Street Wire)—The Wall Street Journal's stock market edition this afternoon says: Stocks gave a creditable performance to-day in the face of a run-up in call money to 5 per cent, the greatest expense attached to demand borrowings since March 30. This tightening tested the market's technical ositiou and the fac that stocks worked higher desite the money flurry went far towards all-laying apprehension in speculative circles with regard to the stability of the general list.

renewing at 414 per cen After renewing at 4½ per cent money was successively advanced to 4½ per cent and then to five per cent reflecting the withdrawal of funds from this centre by out-of town banks. This development checked the rallying tendency displayed by the market leaders in the morning trading and gave the bear crowd a pretex for offering prices down in the noon dealings.

Wabash common was active around the beat levels of the movement, responding to the road's extraordinary showing in May, when net after charges was \$52,439 against \$112,049 in the same month last year. Northwestern ralls continued to reflect the expectation of a rate increase.

CHICAGO GRAIN

Chicago, June 25 (By R. P. Clark and Co.).—Wheat: Liquidation was rather general in character during the greater part of the session, with buying power worefully inadequate, and prices dropped fast. On the break covering by shorts held the market. Nothing especially new developed, but it looked as though longs who had been buying the market on the theory that rust damage would take place over the American and Canadian Northwest became disappointed and unloaded.

Weather conditions in the Spring wheat territorry were cleaging and wheat territorry were cleaging and wheat territorry were cleaging and whigher temperatures were not improbable. Export demand for this grain was moderate on the decline. Fundamental conditions are little changed. The Spring crops are still a long way from harvest, and we believe on any further recession from this level wheat should be bought.

reached directly by other means."

CO-OPERATION URGED

"Co-operation on the part of other nations on the Pacific, all of which control radio operation in their own territory, could secure general interchange of independent and reliable news reports among those nations and with the United States, at a rate not exceeding nine cents a word," he said. "Such a plan was endorsed by the Press Congress of the World in 1922, by the Commercial Conference of the Pan-Pacific Union in 1923 and by the Pacific Foreign Trade Council in 1924.

"Present conditions in the United States tend to give the Radio Corportation of America a monopoly of radio communication with foreign cuntries, and the present policy of that corporation is opposed to low news sates."

McLatchy contended that national interest as well as world peace demanded free interchange of reliable news across the Pacific, and that the United States should either provide the necessary facilities itself or oblige private cable and radio companies to do so in return for franchises granted.

WHEAT IS LOWER ASMARKETDRAGS

Winnipeg, June 25—Dullness was the dominating note to trading on the wheat market to-day and several sharp declines were registered through some recovery was noted in the late session, with July closing 13% lower at 164¼ and October 2% down at 137%. At the extreme low of the day July showed a loss of 2½ and October 3¼ as compared with Wednesday's close. The market lacked buying power throughout the session, and generally followed the trend of Chicago.

There was a little buying of oats and barley. Prices were lower in sympathy with wheat. Rye and flax were featureless.

To-days Mining

Winnipeg, June 25 (By R. P. Clark & Co.)—Wheat—With a total absence of export business, no interest shown by outside public, combined with extreme weakness at Chicago, a more favorable map and forecast, our market took on a rather heavy appearance to-day, prices, lower throughout July closing 12 cent down and October 23 down from previous close.

and October 25 down from previous close.

There was a fair business in October at around 1.38 and also in July on the scale down from 1.64, but there was no pepp to the market and reactions from dips were difficult to recover. Seaboard reported that 200,000 bushels of Manitobas were worked overnight but this was credited to the pool. Bearish views and news appeared to dominate the market and good buying power is not conspicuous.

World's situation is unchanged with resultiness and much depends on the condition of Canadian crop. The present situation in provinces is very favorable, but crop has a long way to go and plenty of grief may develop over next two months. We look for a choppy market for the next few days but would—not-follow the breaks or bulges too far.

WOOL POOL PLANNED TO BOOST PRICES

Melbourne, June 25.—At a meeting of Australian wool growers yesterday Sir John M. Higgins, proposed the formation of an association with a capital of £25.000,000, fail of which will be in wool certificates and half in £1 sterling shares.

He said that the wool growers should voluntarily form the association in order to give more stability to values. The association would acquire the clips by appraisment.

TIMES CROSS-WORD PUZZLE

HOW TO SOLVE THE CROSS-WORD PUZZLE

Every number in the form represents the beginning of a word, reading either horizontally or vertically. If there is a black square to the left of the number, the word is horizontal; if above it, the word is vertical. The same number may of course begin both as a horizontal and a vertical. The definitions for the correct words to fill the form are found below, with numbers corresponding to those on the form. Bun through the definitions till you find one that you recognize, and put it in its proper place on the form, one letter for each white square. This will furnish several eross clues to the words linking with it at right angles. Continue in this manner till the form is completely silled. If you have solved the puzzle correctly it should read both horizontally and vertically with words corresponding to the definitions. The correct solution of to-day's puzzle will be printed in the next-issue of The Times.

Local Driver Will Pilot New Chevrolet Special at Races July 1 and 2

Jack Smith, well-known local rac-ing driver, has now completed build-ing his Cheyrolet Special and an-nounces that he will give it the first test at the motor races in Vancouver on July 1 and 2. The racer is jointly owned by Jack Smith and George Graham.

owned by Jack Smith and George Graham.

The car has been built on the finest lines for speed. The body is under slung while the wheels have been cut down.

Last year Jack Smith carried off the Vancouver city championship and the British Columbia championship, although he will not have to defend these until August.

Three races will be run off each day and the car performing the best during the two day meet in July will carry off the cup.

Fine Programme by Pupils of Mary McCoy Jameson Last Night

The second annual recital of the pupils of Mary McCoy Jameson, LTC.M., was held last evening in Knox Presbyterian Churchl and was greatly enjoyed by a large audience who were generous in their applause. The uniform excellence of the programme was the more remarkable from the fact that only nine of those taking part had been pupils of Mrs. Jameson last year. Mesdames Luney and McRae sang. "I Would That the Love" (Mendelssohn); Miss Nellie Lightfoot .gaye. Needham's "Hush een"; Miss Ida Chue sang Wind Song" and "There Are Fairles" (Loh. man), and later in the programme a duet with Miss Edith Koa. Miss

Miss Louise Moore gave "Chanson Florion" and "Cradle Song," Rinisky-Horsakoff, with fine spirit and tender grace. "My Mother Bids Me Bind My Hair," by Mrs. D. D. McTavish, evoked long applause, and Mrs. McTavish was the recipient of some exquisite flowers. Mrs. W. A. Luney was again heard to advantage in "The Spring Has Come" and "Good Night". Lisst's concert study in D flat, was brilliantly played by Miss Rita Ormiston, pupil of Marian Heming. Miss Oiga Hare sang very sweetly "Where the Bee Sucks" and "Daffodi Gold." "The Lotus Flower" and "Requiem" were two charming songs sung by Miss Marg W. Hamilton, Miss Margraet Wilson gave "Madrigal" and "The Star." Miss Isobel C. Crawford sang "Loreley" with ease and confidence, giving "Homing" as her second number. "Pirlate Dreams," Huertes, and "To the Sun" were beautifully interpreted by Mrs. Horace Hamlet. "Morning" and "My Dear Soul" were sung by Miss Margaretta McPhail. Mrs. C. J. McRae sang "Boat Song" Sanderson.

BETTY IS GIRL CROOK IN PICTURE "PATHS TO PARADISE"

it was a crook role in George Metford's Paramount Picture. "The Miracle Man," that first elevated Betty Compson to stardom. Now Betty's back on the screen at the Dominion Theatre in another crook role—but this time in a fast-moving comedy, "Paths to Paradise." The Heart of a Thief." Miss Compson is featured with Raymond Griffith, the high hat scream, in the leading roles. Tom Santschi, Fred Kelsey and Bert Woodruff appear in the supporting cast of the production which opens with a guide shewing a few sightseers through San Francisco's Chinatown. He informs them that Retty is queen of a gang of counterfeiters, and when the rubber-necks leave the bunch split the money they paid to inspect the place.

Then a taxi driver hops in, announcing that he has a sucker who wants to see a typical Chinese joint. The cellar is transformed accordingly, and Ray Griffith walks into the picture, and the fun is on. Griffith is a clever gentleman crook, and what he doesn't do to these poor underworld thleves isn't worth mentioning.

Remember Griffith in "Forty Winks" and "The Night Club?"
"Paths to Paradise" is furnier thanthe two of them put together.

'THE MONSTER" WITH LON. CHANEY IS COLUMBIA SHOW

"The Monster," a Roland West Production based on Crane Withur's stage thriller, opens at the Columbia Theatre to-day. Lou Chaney, who played "The Hunchback of Notre Dame" and "He Who Gets Slapped,"

Dame" and "He Who Gets Slapped," appears in the little role.

"The Monster" is a surgeon whose twisted brain delights in performing range operations upon victims he lures to his sanitarium.

Johnny Arthur, who is featured with Chaney, is a stage comedian new to the screen. He plays an amateur detective who blunders upon the solution of the mystery of the horrors of the sanitarium.

Gertrude Olmstead, who started her picture career by winning the Elks-

MUSICAL NIGHT AT DOMINION

To-night in conjunction with the screening of the big super comedy production "Paths to Paradise," costarring Raymond Griffith, the silk hat comedian, and vivacious Betty. Compson, the Dominion concert orchestra, will render a tuneful and appropriate musical setting.

Among the many beautiful compositions to be played to-night are such standard favorites as: "The Evening Star," by Wagner, selection "The Cingulee" a musical comedy operetta by Lionel Monckton; "A Curious Story," one of Frommel's popular compositions, and "You and I," a tuneful foxtrot by Archer.

LOVE, ROMANCE, HISTORY, DRAMA, IN "QUO VADIS"

There is love, romance, history, powerful drama, spectacular splender and all pervading Christianity in "Quo Vadis," now showing at the HCapitol Theatre. Although the burning of Rome and the hurling of the Christian martyrs to the lions by Nero thrill and carry you off your feet for the time being, the lasting impressions and soothing thoughts come with the scenes of St. Peter come with the scenes of St. Pe

short-visioned is a notorious myth that I, for one, de not appreciate. I have no qualms for my artistic integrity and welfare because I consider myself also a business man. It is the business of the professional writer to-day to write with the motion picture in mind. And the day is at hand when leading literary people will write directly for the screen, reversing completely the old order. Even at the present authors are satisfied, gratified, to sell magazine scrial rights with book publication following, and the prospect of motion picture or dramatic sales after that. The immense audience the motion picture plays to, far greater than that the most popular author could ever have among the book-reading public, is an undeniable argument in favor of stories written directly for the screen, now showing at the Coliseum Theatre.
